Rev. C2

## UFO 4D Downlight

A small surface mount, trumpet style downlight. Supplied with mounting bracket.

Available in a range of finishes, this fitting can be rotated and tilted to point directly at any objects to be illuminated. The light beam from this fitting is focusable. Also suitable for mounting in the base of a display case and illuminating upwards. Suitable for use where access above or below the mounting surface is not available.

Our downlight fittings are suitable for use in a variety of different applications and are the ideal solution for the illumination of static objects within a display case or cabinet.

Note that all dimensions are displayed in mm
