

PRODUCT SPECIFICATION SHEET

LP5 LED Paver

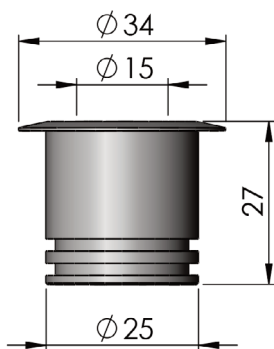

Rev. C3

Small LED paver fitting. Available in either stainless steel or hard anodised aluminum.

At just 34mm (1.33") in diameter and 27mm (1.0") in length, the LP5 packs a punch as the smallest of all our pavers. Its compact stature means that the fitting can be installed in the shallowest of recesses or when space is at a premium.

Available with a choice of color temperatures and narrow or wide optics that allow you to direct the light where it is needed most. Dimming functionality is also supported using a UFO approved dimmer.

Note that all dimensions are shown in mm

TECHNICAL INFORMATION

Illuminator	LED
Operating Environment	Outdoor
Material	Stainless steel or hard anodised aluminum
Finishes	Black, silver, custom RAL to order
Mounting Hole Size	29mm (1.15")
Power Consumption	1W per fitting
